- Capture Transfer of Care times at each facility
- Can be configured to capture delay reasons over defined threshold
- Report on Transfer of Care Compliance Reporting overall and individually
- Primary TOC Trigger monitors the overall performance for all facilities
- Sub TOC Triggers for each facility – They can each access to their own individual performance monitoring trigger
- Integrated MS Excel export for further analysis at both overall and individual levels.

* This web-enabled system enhancement tool also requires the EMS Transport / Hospital Status Dashboard tool to be deployed too.
