✓	3/26/2008 5:45:47 PM	4	Tagging 594 Report			

Law enforcement agencies throughout the United States deal with gang activity and have special units assigned to monitor events. Task forces at Oceanside requested a Trigger specific to the monitoring of such events. This Trigger was designed to search call comments for key words and call types associated with local gangs. As is depicted in the map view, officers can visually identify areas with strong gang activity.
