

24 Years Of Improving Performance & Harnessing The Power Of Your Data

FirstWatch helps public safety and healthcare professionals serve their communities through the use of technology and the science of quality improvement. Drawing on deep experience in emergency services, the FirstWatch team develops software and personalized solutions to help organizations continuously improve at what they do. Founded in 1998, and based in Carlsbad, Calif., FirstWatch has partnered with more than 500 communities across North America to improve outcomes, efficiency, safety, and operations.

FirstWatch.net

Automated, Real-Time Situational Awareness, Performance, Operational and Clinical Quality Measures, **24-7-365**

FirstWatch turns your raw data into actionable, meaningful information in real-time. Helping **over 500 agencies**, our aim is to maximize the value of your CAD, ePCR, ProQA, RMS, Billing, Hospital ED, and Phone data.

Fire departments are increasingly turning to technology and real-time data to measure performance and operational benchmarks using FirstWatch. This includes automated analysis and reporting against criteria established by the Center for Public Safety Excellence (CPSE) and the National Fire Protection Association (NFPA).

Orange County Fire Rescue, FL (Fire Chief Otto Drozd pictured above) uses their FirstWatch Mobile App to monitor system activity. The FirstWatch App allows real-time views into your data for situational awareness, response times

and KPIs, clinical and operational performance, automated alerting, regional data aggregation and sharing, bioterrorism and pandemic/public health surveillance.

In addition to Orange County Fire Rescue, FirstWatch works with these other CPSE accredited agencies including: ConFire JPA (Berkeley, Chino Valley Fire, Colton Fire, Rancho Cucamonga, Redlands), CA | El Paso Fire, TX | Fenton Fire Protection District, MO | Fond du Lac Fire/Rescue, WI | La Crosse Fire, WI | Las Vegas Fire Rescue, NV | Metro West Fire Protection District, MO | Montgomery Co Fire and Rescue, MD | North Shore Fire Rescue, WI | Ontario Fire, CA | Pinellas County (Pinellas Park Fire, St. Petersburg Fire & Rescue), FL | San Antonio Fire, TX | Snohomish County (Fire District 7, South County), WA | and Victorville Fire, CA.

Real-Time data from your CAD, ProQA, ePCR, RMS, Phone, Nurse Triage, Billing, or Hospital ED systems

Fire Operations

Operational & Performance Triggers/Time Compliance Analysis:

- **Call Taker & Dispatch Times** – used to monitor in near real-time, the time it takes call takers and dispatchers to process the initial call against a time standard.
Detailed drill-downs can be enabled by Call Taker or Dispatcher*
- **Out of Chute / Reflex / Out of Station** – used to monitor in near real-time, the time it takes units to respond after they've been assigned/dispatched to an incident.
Detailed drill-downs can be enabled by Unit, Station or Crew by Shift*
- **Response Time** – used to monitor in near real-time, the response time for an incident. There are many variables to start and stop clock times.
Detailed drill-downs can be enabled by Zone, Unit or Crew or by Shift*
- **Time on Task** – used to monitor in near real-time, the total time a unit is on a call from time assigned/dispatched to the time the unit is available or the call is cleared.
Detailed drill-downs can be enabled by Unit or Crew or by Shift*

**requires optional Performance PLUS (PP) enhancement module*

Workforce Safety

Monitor unit activity in real-time.

Report Example: Automated Compliance Reporting

The very labor intensive effort of providing Annual Compliance Reporting (ACR) is simplified by this ACR Custom Report. Defined by the User, this provides year over year performance to response time and demand requirements of the organization. It is a dynamic report, updating on a real-time basis allowing leaders to provide real time monitoring and review of their systems performance. This allows for real-time feedback to crews maximizing organizational performance improvement efforts.

Manatee County EMS Customer Spotlight

“We use IDV to communicate with our hospital partners daily. We provide them with data that showcases their Transfer of Care times, Nurse Signature Times for Transfer and Volume. This helps us have a continual pulse on their performance as it relates to getting our units turned around at their facilities.

We also use IDV to provide senior leadership within our organization a view of how our system is performing. Some of the most desired data is presented to them through IDV to quickly show trends in our teams performance.”
