HIGHLIGHT = existing & LIVE FirstWatch Trigger for some of our Law Customer Partners.

Other FirstWatch Trigger (data filter) examples listed above are IDEAS we've talked about with Law Enforcement teams, or that we may have already deployed for other 9-1-1, Fire or EMS teams, but we've not yet developed, or rolled-out for our Law Customer Partners. Most examples noted above are based upon automated analysis or near real-time CAD data, but could also include ProQA for EPD, as well as Law RMS data, as include / exclude criteria.
