

26 Years Of Improving Performance & Harnessing The Power Of Your Data

FirstWatch helps public safety and healthcare professionals serve their communities through the use of technology and the science of quality improvement. Drawing on deep experience in emergency services, the FirstWatch team develops software and personalized solutions to help organizations continuously improve at what they do. Founded in 1998, and based in Carlsbad, Calif., FirstWatch has partnered with more than 500 communities across North America to improve outcomes, efficiency, safety, and operations.

FirstWatch.net

Automated, Real-Time Situational Awareness, Performance, Operational and Clinical Quality Measures, 24-7-365

FirstWatch turns your raw data into actionable, meaningful information in real-time. Helping **over 500 agencies**, our aim is to maximize the value of your CAD, ePCR, ProQA, RMS, Billing, Hospital ED, and Phone data.

Fire departments are increasingly turning to technology and real-time data to measure performance and operational benchmarks using FirstWatch. This includes automated analysis and reporting against criteria established by the Center for Public Safety Excellence (CPSE) and the National Fire Protection Association (NFPA).

Orange County Fire Rescue, FL (Fire Chief Otto Drozd pictured above) uses their FirstWatch Mobile App to monitor system activity. The FirstWatch App allows real-time views into your data for situational awareness, response times and KPIs, clinical and operational performance, automated alerting, regional data aggregation and sharing, bioterrorism and pandemic/public health surveillance.

In addition to Orange County Fire Rescue, FirstWatch works with these other CPSE accredited agencies including: ConFire JPA (Berkeley, Chino Valley Fire, Colton Fire, Rancho Cucamonga, Redlands), CA | El Paso Fire, TX | Fenton Fire Protection District, MO | Fond du Lac Fire/Rescue, WI | La Crosse Fire, WI | Las Vegas Fire Rescue, NV | Metro West Fire Protection District, MO | Montgomery Co Fire and Rescue, MD | North Shore Fire Rescue, WI | Ontario Fire, CA | Pinellas County (Pinellas Park Fire, St. Petersburg Fire & Rescue), FL | San Antonio Fire, TX | Snohomish County (Fire District 7, South County), WA | and Victorville Fire, CA.

Real-Time data from your CAD, ProQA, ePCR, RMS, Phone, Nurse Triage, Billing, or Hospital ED systems

About FirstWatch

FirstWatch helps public safety and healthcare professionals serve their communities through the use of technology and the science of quality improvement. Drawing on deep experience in emergency services, the FirstWatch team develops software and personalized solutions for over 500 communities across North America. **FirstWatch.net**

Fire Operations

Operational & Performance Triggers/Time Compliance Analysis:

- Call Taker & Dispatch Times used to monitor in near real-time, the time it takes call takers and dispatchers to process the initial call against a time standard.
 Detailed drill-downs can be enabled by Call Taker or Dispatcher*
- Out of Chute / Reflex / Out of Station used to monitor in near real-time, the time it takes units to respond after they've been assigned/dispatched to an incident. Detailed drill-downs can be enabled by Unit, Station or Crew by Shift*
- Response Time used to monitor in near real-time, the response time for an incident. There are many variables to start and stop clock times.
 Detailed drill-downs can be enabled by Zone, Unit or Crew or by Shift*
- Time on Task used to monitor in near real-time, the total time a unit is on a call from time assigned/dispatched to the time the unit is available or the call is cleared.
 Detailed drill-downs can be enabled by Unit or Crew or by Shift*

*requires optional Performance PLUS (PP) enhancement module

Knock Down Times

NFPA, CPSE Compliance to National Goals & Standards (NFPA 1710, etc.)

Operational, Command Staff or Supervisory Sentinel

Fire Sentinel Event Detection Trigger Examples:

- All Fire Calls
- Suspicious fire activity
 - Dumpster
 - Grass / Brush fire
 - Vacant building Smoke investigation
- Vehicle fire
- Occupied Dwelling / Multi-floor
- Boat fire

- Tree Down
- Arson / Arson Patterns
- Fireworks
- Tree into Power Lines
- Transformer Fire / Pole Down
- Illegal Burn
- Explosions

Fire Situational Awareness Trigger Examples:

- Mutual Aid In and Out
- 2nd Alarm / Multi-Alarm Fires
- All Active Fires
- Fire Near / Around High Threat / High Visibility Locations
- School Fires / Nursing Home / Hospital Fires
- Strike Team Assignment
- Bomb Threat
- Explosion
- Aircraft Fire
- Domestic Terrorism
- 1st Unit on Scene

- Homeland Security
- Heavy Rescue
- Hazmat / Chemical
- Task Force Request
- Arson Investigation
- Commercial Structure
- Residential Structure
- Swift Water Rescue
- > "X" Engines Responding
- All Fires by City, County, State (aggregated views)

Proposed Fire & EMS Triggers to Get You Started

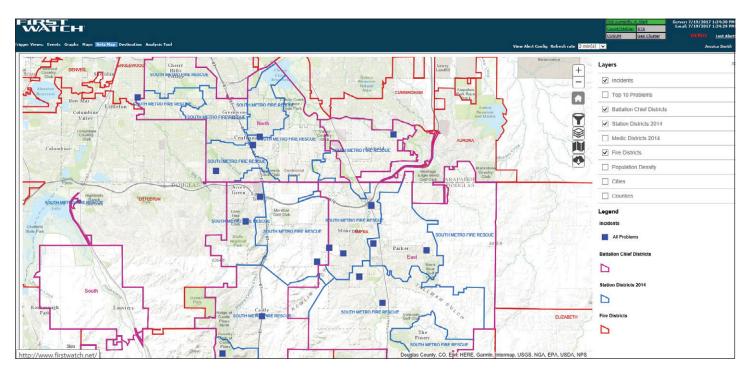

Not sure where you should start? Try starting with the following Fire & EMS configurable triggers:

- Alarm Transfer
- Alarm Answering
- Alarm Processing
- EMS Turnout Days
- EMS Turnout Nights
- Fire Turnout Days
- Fire Turnout Nights
- Travel Time 1st Engine
- Travel Time 1st Assignment (Urban, Suburban, Rural etc.)
- Total Response Time
- Structure Fire
- 1st In Engine Response Time
- Effective Response Force

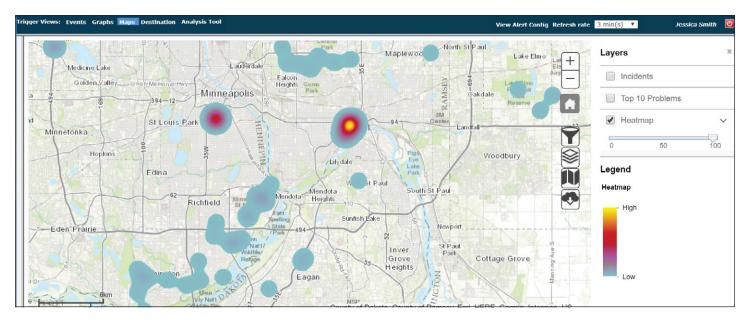

- Response Time Effective Fire Force
- Total Incidents (Fire, EMS, Call Categorization, Alarm)
- Total Responses
- Total Transports
- Total Non-Emergent
- Mutual Aid Given
- Mutual Aid Received
- Simultaneous Counts
- Response Time to 2-In/2-Out (subset of EFR for agencies <4 person staffing)
- · Escalation to 2nd or Greater Alarm (Sentinel)
- Major/Key Incident (Sentinel E.G. Hazmat, Schools, High Hazard Occupancy, MCI, Fatality, Firefighter Injury, Community Leader, etc.)

NEW: Mapping Features

Toggle on/off to layer different mapping components such as Planning Zones, Station Districts, Fire Districts, Population Density, Cities and Counties. Display calls by Top 10 Problems in order to see what/where your most common calls are happening.

Heat maps with a sliding transparency scale

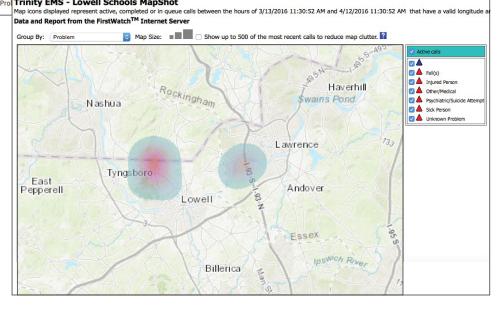

Real-Time Tracking of Opiates Overdoses

Report Example: Automated Compliance Reporting

The very labor intensive effort of providing Annual Compliance Reporting (ACR) is simplified by this ACR Custom Report. Defined by the User, this provides year over year performance to response time and demand requirements of the organization. It is a dynamic report, updating on a real-time basis allowing leaders to provide real time monitoring and review of their systems performance. This allows for real-time feedback to crews maximizing organizational performance improvement efforts.

IDV

What does IDV stand for?

IDV stands for Interactive Data Visualization and like the name suggests, its intended to enable users to create dashboard visualizations offering interactive drill-downs into their FirstWatch data.

More IDV FAQs, please visit: <u>firstwatch.net/idv</u>

Manatee County EMS Customer Spotlight

⁴⁴We use IDV to communicate with our hospital partners daily. We provide them with data that showcases their Transfer of Care times, Nurse Signature Times for Transfer and Volume. This helps us have a continual pulse on their performance as it relates to getting our units turned around at their facilities.

We also use IDV to provide senior leadership within our organization a view of how our system is performing. Some of the most desired data is presented to them through IDV to quickly show trends in our teams performance.³³

Sean Dwyer Assistant Chief, Special Operations Manatee County EMS

SINCE 1998

For 25 years FirstWatch has provided real-time, automated situational awareness visualizations & alerts for our 9-1-1, Law, Fire, EMS, Public Health, and Homeland Security customer partners (across the US).

HELPING MORE HELPERS

Expand your FirstWatch data view by including other regional partners

We're Helping MORE Helpers than ever before! Our FirstWatch customer partners are **strategically** *leveraging their investment in FirstWatch tools and technology* by inviting other Public Safety agencies (dispatched via the same CAD, or using same ePCR, RMS, or ProQA data systems, or even completely disparate CADs, or different ePCR, RMS, or other data systems). Using FirstWatch, all teams can share data & benefit via automated, real-time situational awareness, data visualizations, and automated alerts across the entire operational area, region, or even State!
